

# Keir Starmmer

## PHONE BANK GUIDE

- 1.** Register to call Labour Members at **phonebank.keirstarmer.com**.  
You can do this on your phone or on a laptop.
- 2.** Wait until we confirm your registration – make a cup of tea and you'll receive a text from us soon!
- 3.** Once your text message is through, follow the link and dial the number on screen from the same phone number you registered with.
- 4.** You'll be automatically connected to a Labour Member and told their name on the phone before – follow the attached script and have a chat with them about who they're voting for, and why you think Keir is the best person to serve as Labour leader.
- 5.** After your call, **don't hang up!** Press the \* key to move to the next call and you'll be asked on the call to log some information about the conversation you just had.
- 6.** Your call will automatically ask if you wish to continue and will dial the next labour member for you. Call as many Labour members as you can to help get Keir elected – this week is the most important for the campaign!
